A clear starting point.

Your design summary and personal planning estimate.

Published-guide planning estimate

£15,700

Including VAT · January 2024 examples · selected options and site costs priced separately

This starting planning figure uses Make Room's January 2024 published size examples, plus the published minimum bi-fold allowance where selected. These examples are not a current rate card. Your cladding, glazing, electrics, decking and site requirements still need individual pricing.

Size guide from published examples	£15,700
Cedar · Cedar	Priced by specialist
Selected door & window specification	Priced by specialist
Standard electrical package	Priced by specialist

What the guide covers

Published illustrations for a garden-room build. The final specification, site access, preparation and location are priced by Make Room.

Source: 9 January 2024 price examples

Published examples are not a current rate card. Selected options, site costs and current pricing require a new written quotation.

To confirm separately

- Exact cladding selection and colour
- Extra or alternative glazing and door specification
- Electrical package upgrades and mains connection
- Selected decking and roof overhangs
- Additional site work, access and delivery requirements
- Decoration, planning and any bespoke work

Made for everyday comfort.

Your selected electrical package and the practical details to confirm.

Standard electrical package

- 4 internal downlights
- 2 white double sockets
- 1 two-gang light switch
- 2 external up/down lights
- 1kW white panel heater

Bring the garden into the room.

Your selected doors and side windows create the starting point for natural light and garden views. Your design specialist will check compatible opening sizes, placement and installation clearances.

The details that make it yours

- Flooring: Oak laminate
- Roof overhang: not selected
- Decking: not selected

Supply connection, furniture and decorative accessories are not part of the illustrated design. Colours and natural materials can vary from the screen preview.

Let’s make room.

A useful checklist for your next conversation, and a place to experience it.

Before we finalise your room

- Measure your available space and note nearby trees, fences and boundaries.
- Take a few photos of the garden, route from the road and access points.
- Think about how your room will be used, now and in the future.
- Discuss the base, ground preparation and electrical connection.
- Ask your specialist to check planning and building regulation requirements.
